PRODUCTIVITY AS A PRODUCT.

NEW! Industry 4.0 ready

COLLARING MACHINE

High-speed Fully Automatic Collaring Machine with Fully Servo Controlled Process

S-80

Technical data

Steels	
Collaring range	8-80 mm
Max. run tube size	114,3 mm SCH 10
Rated power	10 kW
Air supply	G3/8"
Air consumption	150 NI/min
Weight (basic unit)	1 200 kg
Noise level	73dB(A)

The information included in this brochure is subject to revision without notice.

The latest **T-DRILL** innovation, Collaring Machine **S-80** with automatic tool changer and fully servo controlled process is highly effective machine for both Stainless Steel and Copper pipes. The high-speed **S-80** has been developed to make collars between 8-80 mm faster than ever before, which makes it a perfect solution for high volume applications up to 4" pipes.

The **S-80** has fully automatic collaring cycle: 1. *Pilot hole milling*, 2. *Collar forming* and 3. *Trimming for the collars to be welded*. Due to the automatic tool changer, it is possible to make different collar diameters during this same automatic working cycle.

The modular design and many unique options allows the **S-80** machine to be adapted for a vast variety of different industry specific requirements. Contact **T-DRILL** sales to determine the optimal solution for your applications.

THE T-DRILL PROCESS

DO IT WITH T-DRILL

Cut costs – Improve quality – Increase profit

- No T-fittings
- No costly inventories
- No tube cutting

- Only one welded/brazed joint
- Minimized inspection cost
- Tee ratio variation flexibility

- Smaller risk of leakage or call-backs
- Optimized flow-characteristics
